Re: Contract N62470-89-D-4814
          Contract Task Order (CTO) 0106
          Preliminary Draft RI/FS Project Plans for
          Operable Unit No. 5 (Sites 2 and 74)
          MCB Camp Lejeune, North Carolina

Dear Mr. Brant:

Enclosed are two (2) sets of the Preliminary Draft Remedial Investigation/Feasibility
Study (RI/FS) Project Plans prepared for Operable Unit No. 5 (Sites 2 and 74) under
Contract Task Order 0106. The Project Plans, which include a Work Plan, a Field
Sampling and Analysis Plan (FSAP), and a Health and Safety Plan (HASP) were
prepared as per the requirements identified in the April 30, 1992 Final Implementation
Plan. Note that the HASP has been developed to include both Operable Unit No. 1
(Sites 78, 21, and 24) and Operable Unit No. 5 (Sites 2 and 74). The HASP has been
submitted with the Operable Unit No. 1 Project Plans package.

In accordance with the distribution identified in LANTDIV's Scope of Work for CTO-
0106, dated March 6, 1992, three (3) copies of all the documents have been forwarded
to Mr. George Radford (MCB Camp Lejeune EMD). In addition, two (2) copies of the
HASP have been forwarded to Mr. Gary Williams of the Navy Environmental Health
Center. The laboratory to be contracted for this project has not yet been selected.
One copy of the Work Plan and the FSAP will be forwarded to the laboratory once
under contract.

If you have any questions, please call me at (412) 269-2016.

Sincerely,

BAKER ENVIRONMENTAL, INC.

Raymond P. Wattras
Project Manager
